ABBEY SMITH, R, and NIGAM, B K: Resection of proximal left main bronchus carcinoma, 616
ABRAMS, I D. *See* VANCINI, M, and ABRAMS, L D
Abscess, pulmonary, due to *Torulopsis glabrata* (P), 707
Absorption, diet and hormones in relation to body weight in obstructive airways disease, 783
ADEGBOYE, D S. *See* MACFARLANE, J T, ADEGBOYE, D S, *et al*
Adenoid cystic carcinoma of left main bronchus and trachea, treatment by left pneumonectomy, resection of 7·5 cm of trachea and direct reanastomosis of right lung, 554
Airway closure, lung volume and gas exchange in hemidiaphragmatic paralysis, effect of posture, 523
disease, obstructive, chronic, assessment of respiratory function in, 254
disease, obstructive, chronic, exercise rehabilitation in (P), 697
disease, obstructive, diet, absorption and hormones in relation to body weight in, 783
disease, obstructive, pressure flow relations in pulmonary circulation in (P), 697
function and lung distensibility in intermediate α_1-antitrypsin deficiency (Pi MZ), 637; *Erratum*, 739
obstruction, atropine metonitrate and salbutamol in, alone and combined, comparative study of, 45
obstruction, chronic, and pulmonary hypertension (P), 697
obstruction, forced expiratory spirogram in, effective time of, 187
obstruction, reversible, mucociliary clearance and pulmonary function in, effect of ipratropium bromide, 501
obstruction, sites of, inhalation lung imaging of, and measurement of functional responses after bronchodilator treatment in asthma, 493
resistance, site of, and bronchodilatation in severe chronic bronchitis, 51
responses and pulmonary function after tantalum inhalation, 486
small, disease of, in children, evaluation of tests for, 217
AKOUN, G. *See* BLANCHON, F, MILLERON, B, *et al*
ALFIERI, O. *See* CRUPI, G, ALFIERI, O, *et al*
ALLEN, C J. *See* PIERCE, R J, ALLEN, C J, *et al*
Allergy and asthma, relationship with birth month (P), 705
AL-NASIRI, N K. *See* JARIWALLA, A G, and AL-NASIRI, N K
Alpha$_1$-antitrypsin. *See* α_1-Antitrypsin
Alveolar macrophages, mouse, in binding and ingestion of human lactoferrin, 209
soft part sarcoma (P), 139
Alveolitis, fibrosing, cryptogenic, and associated digital vasculitis, clinical and immunological features of (P), 705
fibrosing (desquamative interstitial pneumonia), relapse after 12 years, 677
AMERY, W K: Levamisole and surgery in bronchial carcinoma patients: increase in deaths from cardiorespiratory failure (*Letter*), 141
AMIKAM, S, LEMER, J, KISHON, Y, RISS, E, and NEUFELD, H N: Complete heart block in an adult with corrected transposition of the great arteries treated with permanent pacemaker, 547
Aminophylline and salbutamol, intravenous, in asthma, possible synergy between (P), 701
and salbutamol, oral, slow release, at night for prevention of nocturnal asthma, plasma concentrations of (P), 700
intravenous, metabolic effects at therapeutic plasma levels (P), 700
Amoxycillin in acute exacerbation of chronic bronchitis, comparison with ampicillin, 814
Ampicillin in acute exacerbation of chronic bronchitis, comparison with amoxycillin, 814
ANDERSON, G, JARIWALLA, A G, and SAOUR, J: A comparison of ampicillin and amoxycillin in acute on chronic bronchitis, 814
ANDERSON, H R: Chronic lung disease in the Papua New Guinea Highlands, 647
ANDERSON, R H. *See* MILO, S, STARK, J, *et al*
Aneurysm of right subclavian artery, false, and avulsion of right main stem bronchus after closed chest trauma, 684
ventricular, false, with unusual case report (P), 133
Aneurysmal ascending aorta, dissection of, with coarctation of aorta, 606
ANGERPOINTER, T A, JACKSON, P G, and WILLIAMS, B T: Long-term effect of intra-aortic balloon counterpulsation on left ventricular performance (P), 138
Angiotensin I, serum, enzyme converting, and serum lysozyme, measurement of, value in management of sarcoidosis, 57
II levels and peripheral vascular resistance during pulsatile and non-pulsatile cardiopulmonary bypass, 594
ANTHONY, H M, MEARNS, A J, MASON, M K, SCOTT, D G, MOGHISSI, K, DEVERALL, P B, ROZYCKI, Z J, and WATSON, D A: Levamisole and surgery in bronchial carcinoma patients: increase in deaths from cardiorespiratory failure, 4; (*Letters*), 141, 142
Antiasthmatic cigarette smoke (*Datura stramonium*), bronchodilator effects of, 259
Anticoagulants in treatment of small cell carcinoma of bronchus, 113
Antidiuretic hormone, inappropriate secretion of, syndrome of, demeclocycline treatment of, 324
Antigens, histocompatibility, in asthma, population and family studies, 670
Antihistamines. *See* Clemastine

Antismoking cigarette filters (MD-4), radioactive *in-vivo* assessment of (P), 702
α_1-Antitrypsin deficiency (Pi MZ), intermediate, lung distensibility and airway function in, 637; *Erratum*, 739
Aorta, ascending, aneurysmal, dissection of, with coarctation of aorta, 606
ascending, rupture of, associated with aortic coarctation (P), 132
ascending, surgery of, 5 years' experience at regional cardiac centre, 599
"middle aortic syndrome", surgical and haemodynamic considerations in, 470
thoracic, and myocardium, simultaneous penetrating gunshot wounds of, surgical treatment of, 819
Aortic coarctation, pathology of intima in, study with light and scanning electron microscopy (P), 136
graft with polyvinyl alcohol sponge (Ivalon), failure of, late presentation of, 561
stenosis, congenital, 10–22 years after valvulotomy (P), 136
valve disease and asymmetric septal hypertrophy, coexistence in adults, 91
valve replacement with homograft valves, comparative study over 16 years (P), 135
valves, porcine, glutaraldehyde-treated, performance of, influence of fixation conditions, 166
Aortocoronary bypass surgery, evaluation by thallium 201 myocardial perfusion imaging (P), 140
Aortopulmonary bypass surgery, hypothermic ischaemic arrest in (P), 134
ARNAUD, A, DOR, P, BARRE, A, and CHARPIN, J: Prevalence of functional respiratory symptoms in relation to asthma in young adults (P), 704
Arterial return microfiltration during cardiopulmonary bypass in coronary artery surgery (P), 132
Arteries, great, transposition of, corrected, complete heart block treated with permanent pacemaker in adult with, 547
Arthritis, rheumatoid, lung function and frequency dependence of dynamic compliance in, 755
Asbestos, dose response relationships from epidemiological data (P), 692
fibres, behaviour in respiratory system in animal experiments (P), 693
workers, correlations between chest radiography, clinical data and lung function tests (flow-volume curve) in (P), 695
Aspirin, idiosyncratic reactions in asthma to, clemastine inhibition of, 654
Asthma, acute, in adults, 36
and allergy, relationship with birth month (P), 705
and urticaria, experimentally induced, histamine release in (P), 704
bronchial histamine receptors in (P), 703
bronchoconstrictor effects of deep inspiration in, mechanisms of, 234
bronchodilator treatment in, inhalation lung imaging of sites of airway obstruction and measurement of functional responses after, 493
due to 1,5-naphthylene di-isocyanate, 762
due to running, walking and hyperventilation in children, 582
effect of methacholine inhalation on single breath analyses and semi-quantified ^{81m}krypton ventilation scans in (P), 703
histocompatibility antigens in, population and family studies, 670
idiosyncratic reactions to aspirin in, clemastine inhibition of, 654
induced by exercise (E), 571
inhaled clemastine for bronchodilatation and maintenance treatment in, assessment of, 771
intravenous salbutamol and aminophylline in, possible synergy between (P), 701
juvenile, forced expiratory spirogram during clinical remission in, transit-time analysis of, 194; *Erratum*, 664
nocturnal, caused by sleep?, 749
nocturnal, slow release oral salbutamol and aminophylline at night for prevention of, plasma concentrations of (P), 700
occupational, diagnosis from measurement of peak expiratory flow rate in workers exposed to electronic soldering flux fumes containing colophony or to isocyanate fumes (P), 698
occupational, due to colophony, diagnosis from peak flow rate records, 308
occupational, due to isocyanates, diagnosis from peak flow rate records, 317
occupational, in electronics factory, 13
occupational, in electronics factory, evaluation of aetiological factors by case control study, 300
occupational, in former employees of electronics factory, 19
oral theophylline-7-acetic acid in, lack of absorption and therapeutic effectiveness, 540
prevalence of functional respiratory symptoms in young adults in relation to (P), 704
sudden death in, 40
Asthmatics dependent on steroids, double-blind trial of bromocriptine in, 284
Atrioventricular valve reconstruction with flexible ring annuloplasty, long-term clinical and haemodynamic results of (P), 139
Atrium, right atrial-pulmonary artery anastomosis, historical note on (*Letter*), 710
Atropine methonitrate and salbutamol, alone and combined, in airway obstruction, comparative study of, 45
Attapulgite, fibrous, inhalation of, lung fibrosis after (P), 695
